

Chugachmiut WIC Program

For over 15 years the Chugachmiut WIC Program has served the bush communities of Prince William Sound (PWS) and the Copper River Basin.

The villages served in are the following:

Prince William Sound Service Area

Cordova
Valdez
Whittier
Tatitlek
Chenega Bay

The Copper River Basin Service Area

Glennallen	Tazlina
Copper Center	Chitina
Gulkana	Gakona
Chistochina	Slana
Mentasta Lake	Kenny Lake

With the exception of Valdez, the communities of Prince William Sound are accessible only by plane or ferry. A five hour ferry ride from Cordova, (or Whittier on the west side of PWS), to Valdez provides access to the Richardson Highway. Approximately 270 miles of road connects the communities of the Copper River Basin. This area can be described as pioneer with remote and isolated pockets of population. In totality, the geographic size of the Chugachmiut WIC Program's service region consists of 39,000 square miles, roughly the size of the state of Virginia.

WIC Program services are provided by two part-time clinics located in Cordova and Valdez.
Office hours Mon-Wed-Friday 10 am to 3 pm. Toll-free number 1-800-457-5731.
